

# Talent Recruitment and Engagement Management System (TREMS)

Talent Recruitment and Engagement

Office of Human Resources

October 2016

Beginning Monday, October 10, 2016, the UW-Madison Office of Human Resources employment site will transition from its former site, JobApply ([uwjobapply.wisc.edu](http://uwjobapply.wisc.edu)), to a new site, [Jobs.Wisc.Edu](http://Jobs.Wisc.Edu). This site has a new look for job applicants and, behind the scenes, a new system for those managing the recruitment, assessment, selection and onboarding processes.

The new employment site provides job alerts, search and browse feature, online applicant tutorial, and links to vacancies for internal, research, custodial, and student opportunities. Also available on the new employment site is multiple languages contact forms, disability accommodations and frequently asked questions.

Applicants including UW-Madison employees applying for a job posted on the new employment site will be required to create a new applicant profile in TREMS. Applicants who applied for vacancies prior to October 10 via JobApply can still access their applicant portal at [uwjobapply.wisc.edu](http://uwjobapply.wisc.edu)
